DIMAZ DEVRIZA

Full-Stack Web Developer & Network Associate

Padang, West Sumatra, Indonesia • +62 896-6080-7317 • dimaz.corn@gmail.com • linkedin.com/in/dimazdevriza • github.com/dimazdevriza

PROFESSIONAL SUMMARY

Information Technology Graduate (GPA 3.69 / 4.00) from Universitas PGRI Sumatera Barat and Web Developer focused on the Laravel (Laravel 13), Livewire, and MySQL ecosystem. Experienced in designing and deploying real-world operational web applications, including a multi-warehouse logistics system for a residential developer and an active Learning Management System (LMS) at SMAN 15 Padang. Proficient in relational database design, role-based access control, Git collaboration, and cPanel hosting server deployments. Certified in MikroTik MTCNA, Microsoft Azure AI Fundamentals, and holding an Altissia B1 English proficiency score.

EDUCATION

Universitas PGRI Sumatera Barat (UPGRISBA) — Padang, Indonesia **2022 – 2026**

Bachelor of Science in Information Technology (S.Kom) **GPA: 3.69 / 4.00**

Focus: Software Engineering, Relational Database Architecture, Computer Networking, Cloud AI

TECHNICAL SKILLS

Programming Languages:	PHP, JavaScript, HTML5, CSS3, SQL
Frameworks & Libraries:	Laravel 13, Livewire, Alpine.js, Tailwind CSS, Bootstrap
Databases & Architecture:	MySQL, Relational Schema Design, Normalization, MVC Architecture, REST API
Networking & Servers:	MikroTik RouterOS (MTCNA), Routing, TCP/IP, Git, GitHub, Hosting Deployment (cPanel / Rumahweb)

SOFTWARE ENGINEERING EXPERIENCE

D'Royal Village (Housing Development Firm) — Padang, Indonesia **Jan 2026 – Oct 2026**

Web Developer (Client Project)

- Designed and developed a web-based **Logistics Information System** using Laravel 13, Livewire, and MySQL to replace manual paperwork and Excel records.
- Built a **multi-warehouse** module to manage incoming/outgoing stock and track material transfers between project sites in a centralized database.
- Implemented **material cost allocation per housing unit** and equipment loan tracking to monitor budget realization and tool inventory.
- Configured **role-based access management** (Admin, Logistics, Site Supervisors, Finance) and integrated report exports to Excel and PDF formats for management review.

SMA Negeri 15 Padang (Public High School) — Padang, Indonesia **Mar 2026 – Jul 2026**

Web Developer

- Co-developed a web-based **Learning Management System (LMS)** using Laravel and MySQL, currently in active use by school teachers and students.
- Engineered features for courseware material distribution, student assignment submissions with file validation, and automated grading/attendance records.
- Maintained code repositories using **Git** and managed live server configuration and deployment on Rumahweb hosting.

LLDIKTI Region X (Higher Education Service Institution) — Padang, Indonesia **Jun 2025 – Oct 2025**

Web Developer Intern

- Maintained, debugged, and developed features for the **Laboratory Booking Information System (SiLAB)** using PHP and MySQL.
- Refined scheduling validation logic to eliminate overlapping facility reservations between participating universities.
- Constructed digital application workflows, including structured PDF document verification and multi-step admin approval procedures.

CERTIFICATIONS & CREDENTIALS

- **MikroTik Certified Network Associate (MTCNA)**
  MikroTik — International License (October 2026)
- **Altissia CEFR Language Assessment: B1 Score**
  Altissia — English Proficiency (October 2026)
- **Microsoft Certified: Azure AI Fundamentals**
  Microsoft — Official Cloud AI Credential (June 2026)
- **Certified Web Developer**
  Universitas PGRI Sumatera Barat (October 2026)
